

HARSHIL RAMANI

Melbourne, Victoria, Australia

☎ +61 477 227 497 ✉ harshilramani158@gmail.com [in LinkedIn](#) [Github](#) [LeetCode](#) [Projects](#)

SKILLS

Languages: C/C++ Native, Python, Java SE, Bash-Linux, JavaScript, PHP, HTML5, .NET Core MVC, SQL/NoSQL
Cloud/Frameworks/Databases: Flask, jQuery, Bootstrap5, AWS(EC2, S3, RDS, EBS, CloudFront, Route53, VPC, Lambda, IAM), Vercel, Render, MongoDB, MySQL, PostgreSQL, SQL Server
Tools: Git/GitHub, Docker, Kubernetes, DevOps Basics (Jenkins, Terraform, Ansible, Prometheus), Jira, Trello, MS-Teams
Core Skills: Communication(English), IT Support, Server Administration(Nginx/Apache), Agile Methodology (Leadership)
Area of Interest/Learning: Artificial Intelligence and Machine Learning Integrated Smart Solutions Development, LLM and Neural Network Design, System Design, Cloud Development, SRE/Platform Engineering, Computer Networking and Security.

EXPERIENCE

Software Developer and DevOps Intern

March 2023 - October-2023

WeeTech Solution

India

- Collaborated with software development teams to learn DevOps Skills and built CI/CD pipelines using Bash and Python, deploying applications to AWS, Vercel, and Render. Reduced manual deployment effort by **40%** through automation. Used Docker, Kubernetes, and Prometheus for containerization and monitoring in development projects.
- Automated deployment using CI/CD pipelines (Python, Bash), reducing manual efforts by 40% and deployed it on applications running on AWS/Vercel/Render Clouds.
- Collaborated with senior developer to learn advanced programming techniques and software engineering patterns throughout projects, gained hand on experience working with tools like Jira, Trello, MS-Teams

Software Developer (Backend Services)

December 2021 – December 2022

SkyBit Solutions

India

- Started career as a Software Development Intern, learning backend technologies like PHP, Node.js, and ASP.NET MVC and built strong foundations in Object-Oriented Programming (OOP) and core software development principles. Achieved hands-on practicality by developing features for internal projects based on client/application requirements.
- Demonstrated consistent growth in learning and contribution to internal projects, leading to promotion as a Junior Software Developer.

Computer Science - Subject Matter Expert

Feb 2022 – March 2022

Chegg pvt ltd

India

- Solved **100+** Computer Science problems and authored **10+ tutorials** on core topics (e.g., Python, OOP, Linux, C++, Java, .NET, VB, JavaScript, HTML, CSS ...). Mentored over **1000+** students in languages and systems fundamentals.

PROJECTS

JAMES : University ERP System [🔗](#) | C++, Python, PHP, jQuery, MySQL, PWA, Agile (Project Manager)

- Led development of NFC-based ERP system used by **1,200+** students and staff at VNUG University. Built C++ microcontroller logic for ESP32 to securely scan NFC tags and push data to Apache backend. Managed agile team as Project Manager, improving task productivity by **40%**.
- Designed custom chip which identifies and records NFC tags of users and send to Apache server for further processing after valid security checks written in **C++/ESP32 NFC based Micro-controller**.

CropBox : E-Commerce Tool [🔗](#) | Python(Flask), ReactJS/NodeJS, MongoDB, Bash, Vercel/Render)

- Developed an E-Commerce open-source handy solution for Flipkart and Meesho portal's vendors **100+ Users in Surat, Gujarat, India** which allows them to manage bulk operations on shipping label generated by seller's dashboard within seconds. It improved their workflow and productivity by **20%** managing their daily operations in timely manner.
- Implemented a **Python API which uses Flask Framework** to perform document operations on render cloud as per seller's need, where ReactJS manages Front-end users's operations storing real-time user's data into MongoDB cluster delivered by NodeJS backend API's

ACHIEVEMENTS/CERTIFICATIONS

- * AWS Cloud Semester-1 by Amazon Web Services
- * Introduction to Generative AI by Google
- * Introduction to Python Programming by Coursera
- * Programming Tutorials Certifications by Indian Institute of Technology Bombay
- * Accomplished 1533 Team Rank worldwide For Google HashCode 2022

EDUCATION

Master of Information Technology and Systems (Cyber Security)

Feb 2024 – Nov 2025

Victorian Institute of Technology ,Melbourne, Victoria -SGPA - 3.10+

Melbourne, Australia

Bachelor of Science in Information Technology

July 2020 – April 2023

Veer Narmad South Gujarat University, Gujarat, India - CGPA - 8.92

Gujarat, India
